8 Reasons Why Labr-Trak for SyteLine is the Right Solution for You.

The Lake Companies has designed Labr-Trak to fill the needs of small to large multi-site manufacturers, bringing unique visibility and clarity to a company's information. Labr-Trak is a strategic competitive weapon providing accurate costing, visibility to your margins and confidence in your manufacturing and pricing decisions.

1. **An Infor distributed and supported product**

The Lake Companies has developed Labr-Trak specifically for SyteLine. Infor sells and supports Labr-Trak as an Infor Solution Partner product. That means you can depend upon the relationship of The Lake Companies and Infor to get a quality product that provides timely support for upcoming versions and releases.

2. **Tightly integrated, yet code independent with SyteLine 7 and 8**

The Lake Companies and Infor worked together to provide pre-integrated hooks inside of SyteLine to accept Labr-Trak. What you get is a product that allows you to add SyteLine updates without impacting your Labr-Trak application.

3. **Utilized throughout the world**

Labr-Trak is enabled for multi-lingual support. Our users are located around the globe.

4. **Continually Enhanced Functionality**

The product is under constant development adding capabilities requested by our users and leveraging improvements in technology to make your life easier. Labr-Trak is ahead of the curve in offering new functionality.

5. **User acceptance**

A product is only successful based upon feedback from its users. The feedback on Labr-Trak is always positive. The product is well designed and works hard for our customers.

6. **Backed by a company that cares**

The Lake Companies really cares about our users and provides responsive, quality support when needed.

7. **An excellent product at a fraction of the cost of non-integrated labor collection applications**

No other application offers the capabilities provided to SyteLine users that Labr-Trak does. The Lake Companies works closely with Infor to keep Labr-Trak compatible with new Infor add-ons. Such integration and ease-of-use has been built into Labr-Trak to make using the product a rewarding experience.

8. **Labr-Trak is iSyte™ enabled**

The Lake Companies iSyte™ strategy is designed around bringing real-time visibility and clarity to an organizations information. Labr-Trak's development is aimed specifically at offering new, outside-the-box functionality that enhances a company's visibility to their internal operations.

About Infor

Infor delivers business-specific software to enterprising organizations. With experience built in, Infor's solutions enable businesses of all sizes to be more enterprising and adapt to the rapid changes of a global marketplace.
