On-time shipments slipping? Costs climbing? Inventory piling up?

Know What's Wrong. Fix It Faster.

Fact-Trak

Teams waste hours digging through reports and disconnected spreadsheets, trying to figure out what's really happening.

Fact-Trak brings your manufacturing performance into one clear view — ready for action.

- **Connects** directly to your ERP
- **Gets** everyone looking at the same numbers
- **Always** up to date
- **Drills** into the details
- **Provides** root cause guidance with the Fact-Trak AI Assistant

Stop chasing reports.

Start fixing problems faster and improve your results.

Take Control of Manufacturing Performance — Across Your Organization

Fact-Trak **runs in the cloud** and connects directly to SyteLine, giving every team a shared, always-current view of operational performance.

- No more reconciling spreadsheets.
- No more debating whose numbers are right.
- No more waiting until month-end to discover problems.

Spot issues early, understand what's driving them, and take action before they grow.

Built for Manufacturing Teams

Accounting
- Are we on track to hit this month's profit targets?
- Which jobs or cost centers are driving cost overruns?

Planning
- What's driving late shipments?
- Where are throughput times stretching?

Production
- Are we meeting standards for labor?
- What's happening to OEE by machine or work center?

Purchasing
- Which vendors are missing commitments?
- Where are pricing issues emerging?

Quality
- Where is scrap increasing?
- Which vendors show rising quality issues?

Sales
- Where is margin improving — or eroding?
- Which customers or products are changing overall performance?

Know What's Wrong. Fix It Faster.

Built to help you improve manufacturing performance.

Accurate. Up to date. Focused on results.
